A construction contract provides a legal binding agreement, for both the owner and the builder, that the executed job will receive the specific amount of compensation or how the compensation will be distributed.

4 Common Types of Construction Contracts

Contract is intended to refer to a contract for construction or a contract for architect-engineer services, unless another meaning is clearly intended. Design means defining the construction requirement (including the functional relationships and technical systems to be used, such as architectural, environmental, structural, electrical, mechanical, and fire protection), producing the technical specifications and drawings, and preparing the construction cost estimate.

A GUIDE TO CONSTRUCTION CONTRACTS - Bowmans Law

Juan Rodriguez. Updated July 18, 2019. A lump-sum contract is normally used in the construction industry to reduce design and contract administration costs. It is called a lump-sum because the contractor is required to submit a total and global price instead of bidding on individual items. A lump-sum contract is the most recognized agreement form on simple and small projects and projects with a well-defined scope or construction projects where the risk of different site conditions is minimal.
