When paper overlaps when printing using the manual feeder, open the tray and remove the paper, then try printing again. When paper does not feed well while printing, push the paper in manually until it starts feeding automatically. When the printer is in a power save mode, the printer does not feed paper from the manual feeder.

I have the same printer, and it often claims paper tray is empty. Of course it's not empty, but it seems that the paper tray must be full, when aprox. 1/3 of the paper capacity is used it claims empty. Any repair manuals for this printer, warranty is out but this is a printer that is supposed to work for more than a couple of years.
