Current Issues | OU Law

Oil and gas law is the area of law that governs oil and gas production. Oil and gas laws determine who owns the right to mine for oil and gas. It determines what conditions miners have to follow when they harvest oil and gas. The field of oil and gas law is a mix of common law, statutory law and administrative regulations that govern the mining and harvesting of these natural resources in the United States.

Prior to passage of the Cotenancy Statute, West Virginia law mandated consent of 100 percent of the oil and gas owners before an operator could lawfully develop the oil and gas estate. If any oil and gas owner refused to sign a lease, regardless of how small that non-consenting owner's fractional interest, the operator was compelled to either forego development or file a partition action under W. Va. Code § 37-4-3.
