Have students respond in writing or out-loud with a partner to a question on the board about the previous day's lesson. Have students draw a graphic organizer to be used for notetaking later in class. Provide students with notes or vocabulary to copy for use as a reference during the day's lesson.

Instructional Strategies - For the Teachers

The creation of an instructional strategy is an important part of the overall instructional design process. Gagne calls the planning and analysis steps the "architecture" of the course, while the instructional strategies are the "bricks and mortar". This is where you deal with how to actually instruct the student. Previous steps in the instructional design process have deliberately left out any discussion of how the instruction would be done.
