The Shadows - Wikipedia

A shadow is a dark (real image) area where light from a light source is blocked by an opaque object. It occupies all of the three-dimensional volume behind an object with light in front of it. The cross section of a shadow is a two-dimensional silhouette, or a reverse projection of the object blocking the light.

One theory suggests that shadow people are the shadows or essences of people who are having out-of-body experiences. According to Jerry Gross, an author, lecturer, and teacher of astral travel, we all travel out of the body when we are asleep. Perhaps, this theory says, we are seeing the ephemeral astral bodies of these twilight travelers.

Both the Moon and Earth cast 3 shadows: an umbra, a penumbra, and an antumbra. The umbra is the shadow's dark center portion, while the penumbra and the antumbra are different types of half-shadows.

Shadow Science: Why 3 Shadows?

4.5 Stars Although I'm too much of a HUFFLEPUFF to be like Alessandra or to even have the guts to do half the things she does in this book, *The Shadows Between Us* wooed me in all its SLYTHERIN glory. Tired of being constantly overlooked, Alessandra is determined to prove just how cunning and villainous she could be. The plan is simple: 1) Woo the Shadow King.
