Approach: Explain a simple plane frame model with all the necessary dimensions. Motivate the students to find the coordinates of the joints / nodes. Explain the steps to create the same model in STAAD.Pro. o Create the joints in STAAD.Pro.

STAAD.Pro Trainer's Manual

Introduction. The STAAD.Pro graphical user interface (GUI) is normally used to create all input specifications and all output reports and displays. These structural modeling and analysis input specifications are stored in STAAD input file - a text file with extension, .STD. When the GUI opens an existing model file, it reads all of the information necessary from the STAAD input file.
