The Limits Of Competition Law

The Limits of Competition Law. Markets and Public Services. Tony Prosser. Oxford Studies in European Law. Description. This book examines the relationship between law and public services. Prosser argues that there are important limits to the applicability of competition law in this context.

The Limits of Competition Law - Tony Prosser - Oxford ...

" Global Limits of Competition Law (GLCL) is an important book for its survey of the constraints of antitrust... It should be understood as a book that seeks to challenge the present depth limits of antitrust by offering important antitrust contributions... GLCL is a successful collective effort to explain the depth needed in antitrust."

"Lianos and Sokol's The Limits of Antitrust takes as its intellectual impetus the anniversary of the publication of Easterbrook's seminal article (1984), which pointed to the limits of US antitrust (competition) law . . . The edited collection explores where limits now lie in the subdiscipline, ranging well beyond current issues in law and economics thinking in US antitrust law to broader themes."

The Global Limits of Competition Law - GBV

The issues that the chapters in this book raise suggest a broader set of limits, some intrinsic to antitrust, others extrinsic. Our starting point was the intrinsic limits of competition law that Judge Frank Easterbrook highlighted in his seminal article The Limits of Antitrust. We consider, however, that Judge Easterbrook's points related to his concern about overenforcement of antitrust law and the risks raised by the specificity of the U.S. enforcement system, which...

The Politics of competition policy - Faculty of Law

A different conceptualization of the limits of competition law has emerged, drawing more on practical considerations, empirical findings and theoretical meta-principles. This is a particularly relevant issue as competition law has expanded to jurisdictions with very different economic, social, cultural and institutional backgrounds.

This chapter identifies some common limits to the development of competition law in Latin America. These common limits are cultural, political, economic, and institutional. Each of these is analyzed in turn to determine the challenges faced when implementing competition laws and policies designed for a different context without making the necessary adjustments to the reality of each country (or the region as a whole).
