This happens when they give more attention to their clients' well being than their own.

The Resilient Practitioner | Taylor & Francis Group

The tipping point that led to this article being written was the publication in the Lancet of data unequivocally demonstrating the remarkable increase in pressure in the last few years on primary care and particularly on GPs.¹ There have been other times when pressure on GPs has been notable — the new GP contract of 2004 was a response to similar circumstances. But with resources for general ...
