However, since it gets downloaded in a zip file you need a special app or use your computer to unzip the zip folder.

Writing Space The Computer Hypertext

Mr. Bolter's writing provides the bridge for this gap. "Writing Space" forms a concise basis for anyone who is interested in the issue of reconciliation between the old and the new forms of media. This text is the begining in the understanding of the history of print and the advances of media to the modern age

and computer use.

Writing Space | Taylor & Francis Group

Arriving on the literary scene in the early '90s, Jay David Bolter's Writing Space: The Computer, Hypertext, and the History of Writing is one of those pro-hypertext books whose earnest boosterism leaves you feeling a little embarassed. Nonetheless, Bolter's book has recently been seen changing hands around graphic design graduate programs -- I once heard it referred to as "the only interesting writing about new media."

Reading Writing Space | electronic book review

"The second edition of Writing Space will serve as a touchstone text for readers who haven't read the first edition and perhaps would be most useful in undergraduate or graduate classes that focus on the historical context of hypertext studies." —Technical Communication Quarterly. Praise for the first edition:
